

IMPORTANT INFORMATION

As you are aware 'Coronavirus' has been and continues to dominate the news. **The Amateur Martial Association** are carefully monitoring the situation, however, we wanted to update you with some of the measures already put in place to help protect the Association and its staff whilst still ensuring high levels of service.

IT'S BUSINESS AS USUAL

Until we are told otherwise, we aim to keep the office open and maintain business as usual. We still have full access to our membership network so we're currently able to provide our usual level of service.

HOW WE PLAN TO MAINTAIN OUR HIGH LEVEL OF SERVICE TO YOU

As your Martial Arts governing body for many years, we already have a Continuity Plan in place, this has recently been reviewed to consider the new COVID-19. Due to this, we have plans in place should we have to change our working practices and /or location so that we can continue to function as a business and provide our customers with a continued high level of service.

We would encourage our members to use the current registration forms by email and bank transfers for fee's. We are trying to keep the staff's journeys for postal returns to a minimum. Please also follow government guidelines for your health and wellbeing. We will get through this difficult time as a group and as a Nation.

**Many thanks for your understanding, if you require any further information please call the AMA office
